Dear John,

I am sorry I haven't written lately, but have really had little if no time to spend in spirit lately. With Christmas coming up and 2 stores to run and getting ready for the season, just doesn't leave anytime at all for much else.

I tried to do the Soul Transmission but because my energies are having to be focused so much outward with business etc it was not a very good transmission. Jesus said I really need time alone to prepare myself for the transmission and then the Souls who are involved in the foundation, you, Mike, etc, to be present so that I can both draw on your energies to help in the transmissions as well, as the Masters can then convey words, and blessings to each of you at that time. Hopefully, sometime in the future this could be done. The tape I

the questions - Atlantis &
the equipment right now, but
I just don't really have the energy
at times to really sit down and
focus clearly. My days as of
late start at 8:30 AM at 1 job and
end at 12:00 - 2:00 PM - at another plus
whatever counseling I do on the phones
at work or at home ~~at~~ ^{at} night or weekends.
So with this, it doesn't seem to leave
much time for spirit lately.

After I get my energies more
collected I will go over it and explain
how the material worked and so on.

It is really very interesting from what
I saw and quite complete in much
of the details. I was told the Arch was
a small version of a receiver which
works on much the same principle of
the crystal units.

At any rate, here here is the
transcription, short but sweet,
I hope it will give you further insight
into where the foundation is going &

its goals of service.

Irith Mustus
Leght & Service,

Love
Jim
